OVERVIEW

KIJIMA CONSTRUCTION'S goals are high standards, quality workmanship and a commitment to stand firmly behind all projects. This goal generates Customer satisfaction and future business.

KIJIMA Construction was founded in 2001, headquartered in Evander Mpumalanga. KIJIMA Construction is a 51% Black owned company. BEE compliant at level 1.

We believe that no matter the size and scope of a project, your knowledge and proven experience is as important as the skills and materials, you bring to site.

KIJIMA Construction uses top of the range specialized equipment in order to continuously deliver the high-quality standard of work. The investment of high capital in the development of our workforce.

Constantly conscious and focused on safety.

MISSION STATEMENT

- To offer our customers the highest level of quality service at fair and market competitive prices.
- To ensure the longevity of our company through repeat and referral business by customer satisfaction in all areas including timeliness, honesty and fairness in our relationships with our Suppliers, customers and professional associates.
- To develop our employee's skill and expertise so that they can enjoy fulfillment and rewards.
- To protect the environment and natural resources.
- To provide client's with most up-to-date information available
- Work to the highest quality
- Deliver on our promises
- Act with integrity and honesty
- Work with the client as “One Team” putting safety first and taking pride in what we are doing, whilst taking care of each other and preserving the environment for future generations.

OUR VISION

To be successfully; proud and sustainable. To operate and execute projects for the future as we did over the last 20 years.
Providing a safe working environment for our employees. We strive for reliability and quality performance on all services that we provide.
To be an active participant in contributing to the economic reform and global competitiveness of South Africa in the primary and secondary business sector.
To provide an exceptional service offering that allows us to build longstanding relationships.
We aim to offer the best value for money vs our competitors, at the same time operating under the strictest level of safety awareness and standards.
Our mission is to bring pride, passion, innovation, energy, and enthusiasm to the way we do business, and we believe empowering people to explore new challenges to be the best at what they do.

VALUES THAT DRIVE US

We believe that the satisfaction of our customers defines our success and shapes the future of our business

We ensure our employees are well-trained, enabling us to achieve targets effectively and efficiently.

We believe in proper planning and active participation in decision-making to achieve successful outcomes.

We believe in no shortcuts and no compromises – only hard work and the highest standards.

We focus on productivity, ensuring that all work is completed within specified time frames..

We are respectful of one another, fostering a culture of collaboration and mutual trust.

We believe that teamwork builds quality and fosters healthy relationships between personnel, management, and our customers..

QUALITY & WORKMANSHIP

We take pride in the excellence of our workmanship, believing that true quality management lies in consistently delivering the best possible results. Our dedicated staff share this commitment, working tirelessly to achieve our goals and uphold the highest standards in every project.

COST EFFICIENCY

We are committed to supporting our clients through effective project planning and by offering cost-saving alternatives wherever possible, ensuring that every client experiences true value for their investment.

HEALTH & SAFETY

Kijima Construction (Pty) Ltd upholds an impeccable Occupational Health and Safety Management System, fully compliant with and exceeding the international standards of ISO 45001:2018 (Occupational Health and Safety) and ISO 9001:2015 (Quality Management Systems). These systems are independently assessed and accredited by Lloyds, a recognized third-party authority.

We are proud to be a Green-graded company under the Sasol Service Provider Safety Management System (SPSM). In addition, our Environmental Responsibility Management System is in the process of being assessed and accredited by Lloyds to ISO 14001:2015, further demonstrating our commitment to sustainability and compliance.

At Kijima Construction, safety is a way of life. We reject unsafe acts and conditions, applying a principle of Zero Tolerance across all projects and operations. Our philosophy of Zero Harm extends to our employees, environment, assets, equipment, and stakeholders.

We treat every member of our team and our clients with respect, fairness, and consistency. Our Safety Team consists of highly experienced professionals, fully licensed with statutory bodies such as the SACPCMP, ensuring that our operations are guided by expertise and integrity.

Through these standards and values, we demonstrate to our clients our unwavering commitment to compliance, customer satisfaction, and excellence in every project we undertake.

STRUCTURAL STEEL

Steelwork Solutions You Can Trust

From fabrication to transport and installation, we are fully equipped to manage all your steelwork requirements with precision and reliability. Our integrated approach ensures:

- Seamless Coordination.
- Quality Assurance
- Efficiency .
- Reliability

By combining expertise, advanced equipment, and a commitment to excellence, we deliver steelwork solutions that stand strong – both structurally and in customer satisfaction.

CIVIL MAINTENANCE

At Kijima Construction, we specialize in civil maintenance, ensuring that infrastructure remains durable, safe, and fully functional. Our expertise allows us to address both routine upkeep and complex challenges with precision and care. By safeguarding critical assets, we help extend their lifespan, reduce long-term costs, and support sustainable growth for communities and industries.

CIVIL CONCRETE CONSTRUCTION

We excel in concrete civil works, delivering durable and reliable solutions that not only ensure the strength and longevity of infrastructure but also support its continued functionality and resilience. Through our expertise and commitment to quality, we help build foundations that stand the test of time.

ROADS & EARTHWORKS

We specialize in roads and earthworks, delivering reliable solutions from ground preparation through to final surfacing. With proven expertise, we ensure durable infrastructure, efficient drainage systems, and stable foundations that stand the test of time. Our commitment to quality and precision enables us to support communities and industries with infrastructure that is both resilient and sustainable.

MECHANICAL CONSTRUCTION

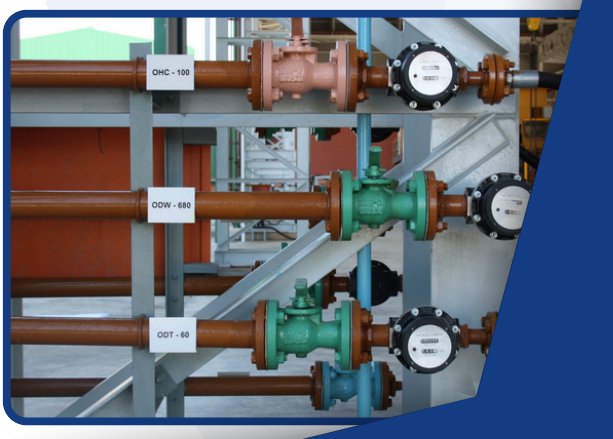

We specialize in the installation of steel and HDPE pipelines, pumps, and all associated electrical and instrumentation works. By delivering reliable and fully integrated solutions, we meet diverse infrastructure needs with precision, efficiency, and long-term dependability. Our expertise ensures seamless coordination across disciplines, resulting in projects that are both robust and sustainable..

BUILDING CONSTRUCTION

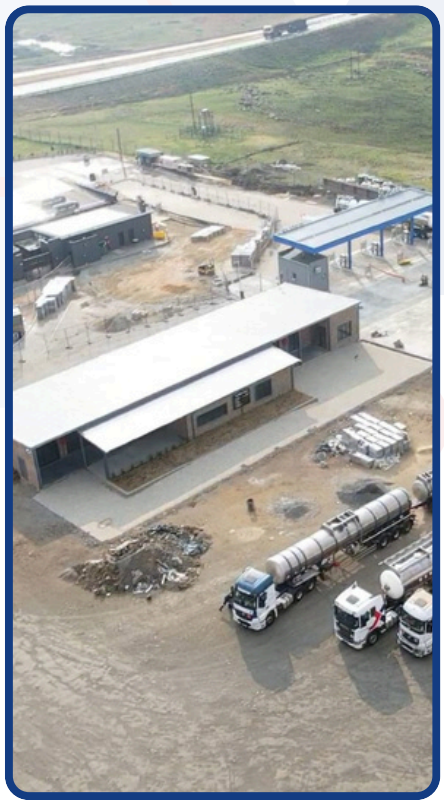

We specialize in building construction, delivering high-quality structures from concept to completion. Our expertise ensures durable workmanship, timely delivery, and cost-effective solutions tailored to client needs. By integrating precision, innovation, and a commitment to excellence, we create buildings that not only meet immediate requirements but also provide lasting value and reliability for the future

BULK EARTHMOVING

We provide bulk earthworks and large-scale earthmoving services, delivering precise excavation, shaping, and compaction to establish stable foundations for mining, industrial, and infrastructure projects. With a focus on accuracy, efficiency, and durability, our expertise ensures that every project is built on solid ground, ready to support long-term performance and growth

EARTH DAMS AND LINING SYSTEMS

We specialize in the construction of PCD earth dams and lining systems, delivering secure and durable solutions in a wide range of shapes and sizes to meet diverse client needs. With a focus on precision engineering and quality workmanship, we ensure that every project provides long-term reliability, environmental protection, and sustainable performance. Our integrated approach allows us to tailor solutions that strengthen infrastructure while safeguarding resources for the future.
